```javascript
function checkEvenOdd(num) {
    if (num % 2 === 0) {
        console.log(num + " is even.");
    } else {
        console.log(num + " is odd.");
    }
}

let num = prompt("Enter a number: ");
num = parseInt(num);
checkEvenOdd(num);
```

```
Enter a number: 42
42 is even.

=== Code Execution Successful ===
```

```
Enter a number: 143
143 is odd.

=== Code Execution Successful ===
